Introduction

1. Mark 16:15-16
2. Charts on the book are not the same as in the flip charts. The thief on the cross is not dealt with in the book, but in the charts. So if questions arise there maybe charts in the other sources, just making you aware of options
3. Go to the survey taken earlier in the study and look at the question, If you have been baptized, were you saved before or after baptism. Do not let them wander about this, it was correct then, but you have learned what the Bible says, but this is what you said then and that is how you felt then and what you did and believed
